To install the program in Windows take these steps:

- 1) Download (if not already done) . Exe file 2) Unzip .ZIP file 3) Download .ZIP file from the provided link 4) Installing

Before you install the software, please make sure that your PC meets the following requirements:

To uninstall Gestion, download this program to your computer after extracting the archive.

- 1) Find

GameLoad is another standalone application also created by Gestion Inc., North America. It is a multi-player game server platform for online games. It includes both built-in administration tools as well as third-party plugins/scripts allowing full customization of its functionality. With this software, you are able to create customized games with various multiplayer modes for different platforms.

To install the software, please download the source code. The source code can be downloaded from GitHub or GitLab.

- 3) Extract it to a new folder using any unpacker such as: WinRAR or 7 Zip.
- 4) Go to the program file and open it with the following command:
- 5) Enter your password and press OK or OK + Enter to start installation. Press Quit+Yes to close the message box.
- 6) When installed, go back to the root directory of application file and delete all files except index.php as seen in screenshot below:
- 7) Open index. php in a new browser window, if everything goes ok, it will open the interface of the application. If you use Windows, then you can do this from command prompt cmd.

To uninstall GameLoad from your computer, follow these steps:

- 1) Delete the program folder from installation directory.
- 2) Open Windows Registry Editor by pressing Win+R on your keyboard and entering regedit. Press OK or Enter on your keyboard to open it.
- 3) Find key HKEY\_CURRENT\_USER\Software\GameLoad\InstallPath and delete its value data (folder path of the program). 4) Open Windows Registry Editor again and find key HKEY\_LOCAL\_MACHINE\Software\GameLoad\InstallPath and delete it.
